

## **Student exhibits symptoms during Wellness Check**

**SCSL** will place child in isolation room and contact parent / guardian to immediately pick up child.

**Parent /Guardian** will pick up child and any siblings attending the school and/or other schools and keep child home following the guidelines below.

—————→ **Recommendation is to have child tested for COVID** ←————

**IF:**

### **STUDENT TESTS POSITIVE, THEN:**

- Parent / guardian immediately contacts principal
- Child's cohort quarantines 14 days from last contact
- Student must complete 14 days isolation from date of first symptom and be fever free for 24 hours without fever reducing meds and other symptoms 75% improved

### **STUDENT TESTS NEGATIVE, THEN:**

- Student must be fever-free for 24 hours with no fever-reducing meds and other symptoms 75% improved. Follow healthcare provider directions, recommended treatment and return to school guidance.
- Dr's note documenting alternative diagnosis or negative COVID-19 test required to return to school.

### **STUDENT DOES NOT TEST, THEN:**

- Student remains in self-quarantine for 14 days from symptom onset, must be fever-free for 24 hours with no fever-reducing meds and other symptoms improved 75% before returning.

## **Student's Household Members Exhibit Symptoms**

Parent / guardian will notify the school and keep child home until situation is resolved.

—————→ **Recommendation is household member tested for COVID** ←————

### **IF:**

#### **HOUSEHOLD MEMBER TESTS POSITIVE, THEN:**

- Student quarantines at home for 14 days from last exposure
  - If student continues contact with the infected they quarantine for 14 days from the time when their family member has met the criteria for release, or from last close contact from positive household member. It's possible student quarantines for up to 24 days.

#### **HOUSEHOLD MEMBER TESTS NEGATIVE**

- Student returns to school

#### **HOUSEHOLD MEMBER DOES NOT TEST**

- Student quarantines for 14 days from last contact
